INTRODUCTION

The 2016 Bismarck Police Department Crime and Traffic Analysis Report is a consolidation of information primarily retrieved from the Records Management System (RMS) and Computer Aided Dispatch (CAD).

The Bismarck Police Department is required to report our crime statistics to State and Federal agencies by law. The reporting system we use is called NIBRS (National Incident Based Reporting System). NIBRS breaks crimes down into Group "A", Group "B", and Group "C" categories. Group A includes a further breakdown of: Crimes Against Persons and Crimes Against Property.

The information contained in this analysis document is a result of the collection of annual data, using the NIBRS standards. The statistical representation depicted in the following tables for Group A, B, and C offenses are the number of actual offenses reported to the Bismarck Police Department. The following tables do not address the dispositions of the reported offenses. All reported offenses are entered into the Records Management System by trained Records Technicians. NIBRS only requires Groups "A" and "B" to be reported to State and Federal agencies.

Specific information provided for NIBRS Group A, B, and C offenses are tabulated by Administrative Services.

2016 HISTORICAL PERSPECTIVE ON GROUP A OFFENSES

Group A offenses consist of the serious crimes against persons, generally felonies by statute; some crimes of vice to include gambling, prostitution and drug offenses; and larcenies which also include fraud. The NIBRS reporting requirements for these offenses are much more extensive than for the offenses classified in Group B and Group C.

Crimes Against Persons

Group A Offenses	2012		2013		2014		2015		2016		%Change 2015-2016
Murder	1		1		1		1		2		100.00%

Stalking¹		23		24		16		26		25	
Kidnapping²	10		9		10		20		13		-35.00%
TOTAL	1,177		1,076		959		1,206		1,198		-0.66%

¹Not Calculable

²Stalking included Harassment prior to 2011

²Kidnapping includes Felonious Restraint and Human Trafficking

In 2016 there was a 62.50% increase in the number of forcible rape crimes reported. The majority of reported sex crimes were reported as Forcible Fondling incidents. Statutory rape reports decreased from 33 in 2015 to 19 in 2016. The great majority of the incidences of sexual assault involve situations in which the victim knows or is acquainted with the perpetrator.

Aggravated assault cases increased 18.33% from 2015. Alcohol was involved in 35.92% of the total Aggravated Assaults. When broken down into Domestic Aggravated Assaults there were 44.90% that involved alcohol. Lesser offenses of personal (simple) assault decreased from 2015 by a total of 1.9%.

Domestic Violence continues to be a primary concern due to its frequency and percentage of the assault reports received by the department. Of the 142 aggravated assaults in 2016, 49 (35%) were related to domestic violence. Of the 781 simple assaults in 2016, 209 (27%) were related to domestic violence. Of those 209 domestic simple assaults, there were 103 or 49.28% of the total domestic simple assaults involved alcohol. Assaults related to domestic violence comprised approximately 27.95% of the total assault reports in 2016.

Stalking and Harassment reports were separated in 2011 because Stalking is a more serious offense than Harassment. By separating the two it made it easier to keep track of Stalking reports. Harassment is now classified under the All Other Offenses in the Group B Offenses.

Human Trafficking is included in Kidnapping/Abduction charges. Almost every prostitution case could be considered human trafficking, but rarely do they get charged out because of lack of cooperation. We investigated one human trafficking case this year, compared to two in 2015. Two cases were turned over to BCI. The one case we investigated was exceptionally cleared.

Crimes Against Property

*Not Calculable

Group A property crimes for 2016 decreased overall by approximately 2.00%. Possession of Stolen Property offenses were up 24.62% from 2015. Vandalism offenses increased 3.78%. Motor Vehicle Theft increased 155 offenses which is a 100.65% increase from 2015. Burglary offenses increased 14.66% in 2016.

Drug/Narcotic Violation offenses increased 2.31%; Drug Paraphernalia/Equipment offenses also increased 3.13%.

Looking at the calls for service for Drug/Narcotic Violations 57.77% were self-initiated.

Group A Offenses, **Crimes Against Persons** decreased 0.66% from 2015. This year's numbers are below the 5-year average (1,198 reported in 2016 compared to the 5-year average of 1,123).

Group A, **Crimes Against Property** decreased 2.00% from 2015. This year's numbers are above the 5 year average (5,487 reported in 2016 compared to the 5-year average of 4,839).

The chart below shows the comparison for Group A Offenses (Persons and Property) for 2016 with that of the five year average.

- The total of 2016 **Personal Crimes** is 6.66% below the 5 Year Average.
- The total of 2016 **Property Crimes** is 13.39% above the 5 Year Average.
- Overall, Group A Offenses, Personal and Property combined decreased 120 offenses or 1.76% from 2015 to 2016.
- The population for Bismarck 2016 was approximately 71,167 which is about a 3.30% increase from 2015.
- The Personal Crimes for Group A Offenses per capita is 16.8 crimes per 1000 people, compared to 2015 this is a decrease of 4.00%.

- The Property Crimes for Group A Offenses per capita is 77.1 crimes per 1000 people, compared to 2015 this is a decrease of 5.17%.

HISTORICAL PERSPECTIVE ON GROUP B OFFENSES

Group B Offenses

*Not Calculable

NIBRS uses the Group C category to collect those offenses in which Society may be the victim. These include offenses against the public order, health code violations and animal type situations.

When compared to 2015 Group C offenses increased by 8.91% in 2016. The greatest percent of change was recorded in categories with fewer reports overall. Some of the highest percentage increases was a 116.67% increase for Other Family reports. Domestic Disputes increased 0.93% in 2016. There were 1,777 Calls for Service for Domestic Violence in 2016 compared to 1,691 calls in 2015. This shows an increase 5.09%. This is particularly significant as the Department holds Domestic Violence incident response as a high priority.

*Not Calculable

The arrest data shown above is for the arrests of adults only. Juvenile arrest data will be shown in the following section. Total adult arrest Charges for 2016 increased 7.72% from 2015. Total adult arrest charges for 2016 is above the 5 year arrest average. A variety of factors affect the arrest rate, to include:

- 1) Special enforcement emphasis in certain areas, such as grant funded DUI enforcement projects;
- 2) Department priority, such as increased emphasis on crimes of drug violations due to increased occurrence of these offenses; and,
- 3) Limitation on officer time to perform proactive enforcement due to increased time on calls for service and other demands on officer time.

There were 4,958 individuals arrested in 2016 compared 4,631 individuals arrested in 2015, this is an increase of 7.06%. Starting in 2012 criminal traffic arrests (Other Traffic) was counted as arrests; this includes No Liability Insurance, Driving Under Suspension/Revocation and other arrest-able traffic violations.

*Not Calculable

Overall total citations decreased 22.37% from 2015. Disorderly Conduct offenses decreased 18.64% and Liquor Law Violations decreased 33.33% from 2015. The total juvenile citations were 819, which is below the 5 Year Average of 1,076, a difference of -24.06%.

There were 663 individual juveniles cited in 2016, compared to 871 in 2015 that is a decrease of -23.88%.

TEMPORAL DISTRIBUTION FOR CRIMINAL REPORTS

The following graphs and tables show the day of the week and hourly breakdown for all criminal offenses (where a report was made) as listed for Group A, B, and C Offenses under NIBRS. These numbers only reflect those incidents where a police report was generated and does not include those incidents that are traffic related. The time used for these tables is the "occur from" time. The police officer tries to establish the time that an offense occurs at the time of the report and often times there is a spread of hours. The day of week table charts the day that the report was filed.

Friday and Saturday reported the most offenses for the week. They are also above the average of 2,193.

The following graphs show the criminal activity by hour block for the day shift and night shift. The day shift works a 12 hour shift which is from 0700-1900 hours and the night shift works a 12 hour shift which is from 1900-0700 hours.

CALLS FOR SERVICE

In the CAD (Computer Aided Dispatching) system, calls for service are coded by priority. The definitions are as follows:

- Priority 1 primarily traffic stops
- Priority 2 emergency responses for medical emergencies, or crimes in progress
- Priority 3 priority response, crimes not in progress but serious in nature or just occurred
- Priority 4 routine response, calls of crimes that occurred sometime before or lesser offenses
- Priority 5 administrative activities without specific crime involvement

**Bismarck Police
Officers made 16,777
Traffic Stops in 2016**

**Case Numbers
Assigned 2012-2016**

2012.....	23,349
2013.....	24,135
2014.....	22,634
2015.....	22,901
2016.....	23,733

**The Bismarck Police
Department responded to
40,045 Priority 2, 3 and 4 calls
for service in 2016. A total of
15,932 police reports were
generated.**

With respect to calls for service, the numbers reflect only the Priority 2, 3 and 4 calls, the ones specifically calling for a police response. The northwest part of town is accounting for 34% with both the southwest and northeast accounting nearly the same percent, differing by 778 calls. The southeast is well below the others accounting for approximately 12%. The northwest part of town has the largest amount of population and is mostly residential. The southeast area is mostly a commercial and industrial area accounting for that area experiencing the fewest calls for service.

Calls for Service by Beat Area 2016

2016 Calls for Service by Day of Week

Priority 2, 3 and 4 Calls for Service by Year

Year	Total Calls	% Change from Prior Year	% Change from 5 Year Average
2012	36,216	9.75%	11.62%
2013	34,146	-5.72%	2.58%
2014	34,130	-0.05%	0.93%
2015	37,233	9.09%	6.55%
2016	40,045	7.55%	10.15%

2016 Calls for Service by Response Type

The following graph shows calls for service compared to criminal activity, which are reported in 2 hour blocks.

Since the Patrol Section compiles the highest volume of activity, we are using the hours of Patrol operation as the baseline for time study. Day shift is 0700-1900 and night shift is 1900-0700. The statistics for 2016 show 62.97% of the calls for service occur during the day shift and 37.03% occur during the night shift. Criminal activity (criminal incident reports filed with the department) was at 55.11% during the day shift and 44.89% during the night shift. The following table provides a graphical representation. More than likely, there are simple

explanations for these differences. For example: there are fewer people awake at night to call in and generate a call for service, but the officers are out there working 24 hours a day, 7 days a week. While these tables reflect only the middle priorities of calls, the CAD system recorded 116,228 separate calls for service in all priorities. Many of the more serious calls will have more than one or two officers dispatched to handle the call. As a result, the number of officers assigned to the calls for service was 131,451 for 2016. Another factor to consider is that often times a person may not be able to accurately account for the actual time that an offense occurred. They call to report the offense during the day, but the offense likely occurred during the late night or early morning hours.

Time Frame	Calls for Service	Criminal Activity
0700-1900	62.97%	55.11%
1900-0700	37.03%	44.89%

SUMMARY AND LIMITATIONS

No records management system is perfect and therefore explanations are warranted to ensure the information is not misrepresented. The following bullets represent some of these limitations:

- When viewing Group C it is imperative to note that the numbers presented only represent when an officer completed a report. For example, on face value it would appear that the Bismarck Police Department responded to 74 Medical Assists (coded as Ambulance Requests). This number can be misleading to persons not familiar with the Police Department. Based on what officers on patrol normally do, officers only write reports on a fraction of the medical emergencies to which they respond.
- Another misleading figure in the Group C category would be the Loud Party classification. The report shows 12 reports, but officers actually responded to and handled 721 complaints of loud parties.
- When viewing Group C Alarm calls it shows that the Police Department had 1 Alarm call report. If a report is made on an alarm call, the call is recoded as the reported offense (i.e. Burglary, Vandalism ...). The Police Department responded to 1,641 alarms.
- Again with respect to the viewing of Group C it would appear that officers handled 218 Domestic Disputes. Here it is important to understand that if an arrest is made at a domestic dispute the report is recoded by the Records Section to reflect the charge levied against the person arrested. In actuality, officers dealt with 1,216 separate incidents with domestic relationship involved. This is tracked by the addition of a code to the record that indicates there is a domestic relationship between the main parties of the report, regardless of what type of incident is being reported.

TRAFFIC ANALYSIS

The number of parking tickets decreased 503 or -4.35% in 2016 from 2015.

There were 503 individuals arrested for DUI in 2016 compared to 508 in 2015. 72.56% of those arrested were male and 27.44% were female. The average Blood Alcohol Content (BAC) for those who were tested was **0.17%** by weight. By law, it is illegal to operate a vehicle with a BAC of eight one-hundredths (.08%) of one percent by weight or higher for adults.

The total of Traffic Citations showed an increase of 1,231 or 8.30% citations issued. The information below shows the traffic offenses with more than 100 citations issued for the year. The ordinance title list remained the same with some slight positional changes, but these violations seem to remain consistently high every year.

Citation Offense	2015	2016	Difference
Speed Limitations	3,511	4,005	14.07%
No Liability Insurance (Mun Ct)	2,144	2,134	-0.47%
DUS/DUR	1,323	1,510	14.13%
Violation of Registration Provision	1,123	1,300	15.76%
Care Required	975	1,072	9.95%
Stop Signs & Yield Signs	545	769	41.10%
Safety Belts Required	565	411	-27.26%
DUI/APC	508	503	-0.98%
Traffic Control Signal Legend	438	425	-2.97%
Equipment of Motor Vehicles	591	657	11.17%
Limitations on Backing	351	347	-1.14%
No Driver's License	475	545	14.74%
Following too Closely	311	308	-0.96%
Turning Movement & Required Signal	227	266	17.18%
Restricted License	197	254	28.93%

Obedience to Traffic Control Device	112	105	-6.25%
Required Position & Method of Turn	147	107	-27.21%
Child Restraint Device	106	93	-12.26%

Type of Crash	2012	2013	2014	2015	2016	% Change 2015-2016
Animal Report	15	5	0	0	0	*NC
Non-Reportable	102	82	42	47	28	-40.43%
Non-Traffic	1,335	1,336	1,434	1,311	1,270	-3.13%
Traffic	2,295	2,562	2,348	2,366	2,491	5.28%
Totals	3,747	3,985	3,824	3,724	3,789	1.75%

There was an increase of 1.75% or 65 for crashes in 2016 from 2015. Weather plays a significant role in the number of crashes and a bad day can easily raise the numbers from an average of 8-10 per day to 40-50 per day. December alone accounted for 621 of the crash total. This represents 16.39% of the annual total in one month. For the year, Bismarck averaged 10.20 crashes per day. December's average was 20.03 per day.

Crash Outcomes	2015	2016
Fatalities	2	2
Injuries	489	382
Damage Amount	\$14,529,190	\$13,380,022

As a result of the crashes in 2016, there were two fatalities which was the same as 2015. There were also 382 persons injured which is a decrease from 489 persons injured in 2015. The injuries ranged from a minor cut or abrasion to permanent disfigurement/disability. The estimated property damage as a result of these 2016 crashes was \$13,380,022 which is a decrease of \$1,149,168 from \$14,529,190 in 2015.

The table below shows the Traffic Volume for the five busiest intersections in Bismarck.

Comparing the NDDOT 2014 Traffic Volume Map to 2016 there is an average increase of 3.78% of traffic volume for these five intersections in the city of Bismarck. The traffic volume is measured by NDDOT.

When comparing 2014 traffic crashes to 2016 traffic crashes there was a .92% decrease.
